EXAMPLE CONFIGURATIONS OF THE TEAR 1F SYSTEM

Single-circuit track systems offer great design flexibility..

Thanks to them, you can easily adjust the placement of luminaires to the layout of furniture, workstations, or decorative elements.

Kanlux TEAR 1F

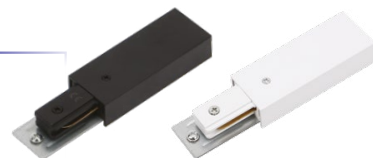

Power supply set

1 The quick connector

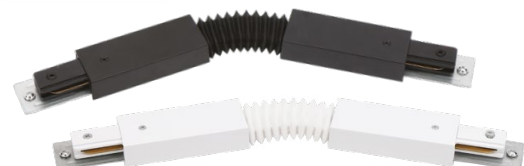

speeds up and simplifies the installation of the track system

2

TEAR 1F PCON

TEAR 1F CON-I FLEX

TEAR 1F PCON M

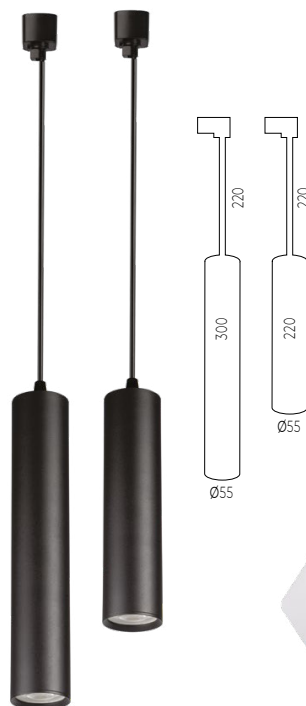

2 Power connections enable supplying power to the track line using a **PCON** start connector, a **CON-I FLEX** flexible connector, or centrally with a **PCON M** connector (in installations where the power supply point is located in the middle of the room).

Kanlux ATL 1F SPOT

Adjustable spotlight

- luminaire for replaceable GU10 light source
